

SHORT-TERM LIFARS INCIDENT RESPONSE AND DIGITAL FORENSICS RETAINER DURING CORONAVIRUS CRISIS

As organizations scramble to adopt new operational processes to allow for business continuity during the global COVID19 crisis, they are also coming under attack by malicious actors who are deploying creative and ruthless attacks to exploit these timely vulnerabilities – putting the livelihood of organizations even further in peril.

The mass workforce transformation that we are living through, trending toward telecommuters, increases the pool of cyber victims and encourages attackers to make the effort. Along with this shift, LIFARS is observing **increased variation of attacks and increased susceptibility to attacks.**

LIFARS understands that it can be challenging to make a long-term commitment during such a time of uncertainty. However, one thing that is **especially important NOW is to control what can be controlled and to ensure that your organization's most vital assets are protected.** Furthermore, **it is essential for organizations to ensure that they are ready to respond to a cyber-attack.**

To offer the unique support that organizations need at this time, LIFARS has developed a Short-Term Incident Response (IR) Retainer, and Remote Worker Resilience Services.

Our skilled team of cyber responders can assist with your cyber-attack situations before it becomes cyber pandemic.

The offer is as follows:
